THF(Tetrahydrofuran)

Characteristics	Typical Value	Specification	Test Method
Apperance	-	Water-white Liquid	Macrography
Purity, wt%	-	min. 99.9	By GC
Color, APHA	-	max. 10	ASTM D 1209
Moisture Content, wt ppm	-	max. 100	ASTM D 1364
Peroxide (as H ₂ O ₂), wt ppm	-	max. 50	By UV/VIS.
Inhibitor (as BHT), wt ppm	-	200 ± 50	By UV/VIS.
Specific Gravity (20/4 °C)	-	0.886 ~ 0.889	ASTM D 1298

Specifications are guaranteed in strict accordance with the stated standards. As the case may be, other advanced test methods that give the same results as with the above standards but take less time can be applied for quicker assurance of the quality.
