

JIANGSU DYNAMIC CHEMICAL CO.,LTD.

ADD: 1-A22-1 BAILONG ROAD, NANJIG CHEMICAL INDUSTRY PARK, CHINA

TEL: (86)25-58391532

FAX: (86)25-58392798

SPECS:

ETHYLENE GLYCOL MONOBUTYL ETHER (BG)

CAS: 111-76-2

TECHNICAL INDEX::

ITEMS	BG
APPEARANCE	COLORLESS TRANSPARENT LIQUID
PURITY WT PCT \geq %	99.0
MOISTURE \leq %	0.1
SPECIFIC GRAVITY(d_4^{20})	0.898-0.905
ACIDITY(HAC)	0.01
COLOR (PT-CO) (Pt-Co) \leq	15

Application: BG is mainly used as the solvent for nitrocellulose, synthetic resin, painting, enamel, grease and paint remover. It is used as medicine extractor in pharmacy industry and resin plasticizer in plastic industry, fiber lubricator in textile industry and dispersing agent of chemical fiber oil reagent. It can also be used as dispersing agent of pesticide, solvent for dry cleaning and cutting oil and organic synthetic intermediate, assistant solvent of mineral oil emulsion and analysis reagent.

Packing: packed in drum, 186KGS/drum.

Storage: store in a cool, ventilated, dry place, in accordance with the Hazardous chemical transportation
