Technical Data Sheet

Products Code: [135032](#)

Melamine

Molecular Formula: $C_3N_6H_6$

CAS No.: 108-78-1

Specification:

Item:

Appearance	White Powder
Purity	$\geq 99.8\%$
Moisture	$\leq 0.1\%$
Ash	$\leq 0.03\%$
PH Value	7.5~9.5
Turbidity (Kaolin)	≤ 20
Color (Pt-Co)	≤ 20

Packing:

25kg p.p. woven bag with p.e. inner bag or 500kg/1,000kg p.p./p.e. woven bag.

Use:

mainly used in Melamine formaldehyde resin with excellent water resistance, heat resistance, arc resistance and gloss, used as decorative plates, amino plastics, adhesives, high-grade paint, pigment, papermaking intensifier, textile auxiliaries, superplasticizer, Leather retanning agent.

Note for Transport: NON – Dangerous goods
